

PRATHOSH S.

Web Developer

prathoshprathosh78@gmail.com | +91 9750821988 | linkedin.com/in/prathosh-s-8a3356334

PROFESSIONAL SUMMARY

Early-career Frontend Developer with hands-on experience building responsive, component-based web applications using React.js, JavaScript, and TypeScript. Skilled in REST API integration and Firebase-backed authentication and data storage, with a strong focus on UI/UX and clean, maintainable code. Comfortable collaborating with backend developers and cross-functional teams to ship functional, user-focused interfaces. A fast learner with a problem-solving mindset, eager to contribute to production-grade frontend projects.

TECHNICAL SKILLS

Core Web Technologies: HTML5, CSS3, JavaScript (ES6+), TypeScript

Frontend Frameworks & Libraries: React.js, React Router, Redux Toolkit, Vite, Axios, Chart.js

Tools & Practices: Git, GitHub, Firebase Authentication, Firebase Firestore, Responsive Design

PROFESSIONAL EXPERIENCE

Technical Intern – Web Developer

FortuMars AI Technologies and Business Solutions Pvt. Ltd.

Coimbatore, Tamil Nadu | January 2026 – June 2026

- Developed responsive, cross-browser web applications using React.js, translating UI/UX designs into functional interfaces.
- Built reusable, modular UI components that improved development speed and consistency across the application.
- Integrated Firebase Authentication and Firestore to enable secure user sign-in and real-time data storage/retrieval.
- Consumed and integrated REST APIs with Axios to connect frontend components to backend services and dynamic data sources.
- Collaborated closely with backend developers to align API contracts, resolve integration issues, and ensure smooth data flow.
- Identified and fixed UI bugs and inconsistencies, improving usability and cross-device responsiveness.

PROJECTS

Rudhranethra – E-Commerce Website

React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Firebase Authentication, Firebase Firestore

- Developed a modern, fully responsive e-commerce interface featuring a browsable product catalog and shopping cart functionality.
- Implemented Firebase Authentication for user sign-up/login and Firestore for real-time product and order data management.
- Built reusable React components (product cards, cart items, filters) to streamline development and maintain UI consistency.

IRIS — Intern Tracking System

React.js, JavaScript, HTML5, CSS3, Firebase Authentication, Firebase Firestore, Chart.js

- Built an intern management platform with a centralized dashboard for tracking intern progress and activity.
- Implemented Firebase Authentication for role-based access and Firestore for persistent intern and task data.
- Designed interactive analytics and progress visualizations using Chart.js to help supervisors track performance.

Campus Connect

React.js, JavaScript, HTML5, CSS3, Firebase Authentication, Firebase Firestore

- Built a college management platform providing dedicated student and faculty portals with role-based dashboards.
- Implemented Firebase Authentication for secure login and Firestore as the backend database for academic records.
- Structured the application using component-based architecture to support scalability and easier feature additions.
- Designed a responsive layout ensuring usability and accessibility across a range of devices and screen sizes.

EDUCATION

Bachelor of Engineering (B.E.) – Electronics and Communication Engineering

2022 – 2026

Sri Ranganathar Institute of Engineering and Technology

STRENGTHS

Responsive Web Development • Clean Code Practices • Problem Solving • Team Collaboration • UI/UX Focus • Attention to Detail
